

Sessions & Stewardship Committees...

## SCHEDULE A STEWARDSHIP WORKSHOP NOW

A number of congregations in the presbytery have said they have “money problems” and they could use help with stewardship. In response, the Congregational Stewardship Education Task Force has been developing two workshops to help congregations with specific aspects of stewardship.

The first, *Annual Campaigns That Really Work*, touches on the role of the annual campaign in the life of a healthy congregation and offers specific time-tested approaches.

The second, *New Roofs and Better Staff: How to Raise \$200,000 for Something Important*, offers specific helps related to developing a one-time campaign for a special project.

Members of the task force are available to offer these workshops to sessions and members of stewardship committees. Ideally, two or three sessions or stewardship committees might consider scheduling a combined workshop.

If you have questions or would like to schedule a workshop, you may contact the Rev. Bruce Ballantine at 330.532.4670.
